3. LOGISTICS INTEGRATED MANAGEMENT SYSTEM (LIMS)

The primary intent of the LIMS project is paraphrased from the project Goal: To develop an integrated management system that recognizes and reacts to service requirements . . . enhances operational efficiency, effectiveness and productivity . . . increase(s) automation in OL information handling (and processing transactions) . . . supports worldwide OL (and Agency) operations. . . interface(s) with Agency accounting, budget, and payment processes. 2. INCREASE IN FUNDS AND/OR POSITIONS FOR SOFTWARE DEVELOPMENT

Many cost savings recommendations derive from the benefits of automating manual systems or redesigning currently automated systems. ODP and the Agency in general are currently underinvested in the software development area: additional funds and/or slots for ODP or other components would mitigate this problem. Cost savings would of course depend on the specific application automated, but just in terms of the specific computer systems addressed by DD/A components the savings can be expected to aggregate to well in excess of \$500,000 on an annual basis.
